Care.

Outreach Program

The T.M.W.I.H.C Outreach program will help current and future patients enroll in and maintain insurance coverage through Medi-Cal, Covered California, Medicare, and other insurance programs. Our outreach services will help facilitate access to quality healthcare and affordable insurance. If you need help updating or enrolling in insurance, please reach out to Dee Baldwin, Outreach Manager, at 209-770-4127 or email at daniell.baldwin@tmwhc.org

Medi-Cal Renewal

During the pandemic, Medi-Cal continued coverage without requiring annual renewal. Starting in April 2023, Medi-Cal will again require their agency to determine yearly eligibility. Please ensure your information is current by logging into your account at CoveredCA.com or BenefitsCal.com or contacting our county office. If you need help, please call Dee Baldwin, Outreach Manager, at 209-770-4127

Dental Services

We now offer more dental services at our TMWIHC Dental Clinic. On top of examinations, cleanings, fillings, crowns, dentures, and more, we now provide molar extractions and root canals.

A Message from our CAO

Hello everyone!

We are excited to bring you some good news, but first, thank our staff for their hard work and our patients for their support!

At TMWIHC we work very hard to offer the community access and quality of healthcare.

We now have a Diabetes Program. It is in the beginning stages but is here to help you.

We also have an Outreach program designated to help everyone without insurance or Tribal Members who live outside Tuolumne County.

We also have same-day appointments (at this time, they are limited, but we are getting there)

Lastly, we want to hear from you, and we have installed survey kiosks in every clinic.

Please take the time to tell us how we are doing and how else we can help!

Best regards,
Lecia Scotford, CAO

Patient Portal

Our Patient Portal is now up and running and although it is still in the infant stages, there are already some cool features to check out and benefits of signing up to use it. If you are interested, at your next appointment please inform the front office staff and provide a valid email. Once you log in you will be able to check messages from providers, see upcoming and past appointments, request medication refills and patient records. Some other features are patient education material and fill out health forms ahead of time.

Surveys-Happy or Not

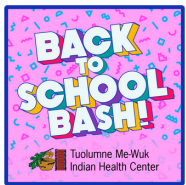

We are always looking for ways to improve our service, and now you can tell us how at the end of your appointment. At check out, you will see a kiosk called Happy or Not. The survey takes less than 30 seconds and will ask some key questions about your visit. You will even have a chance at the end to leave additional comments, good or bad; we want to hear them.

Telehealth

We are all busy nowadays, and time is precious, so getting care doesn't just mean you need to take much time out of your days to do so. But did you know that many of your health needs can be handled at home with "telehealth?" A telehealth visit is a way to connect with your provider using your mobile device, tablet, or computer. It is fast, easy to join, and can be done anywhere you have the internet or WIFI. So next time you call to schedule an appointment, ask about making it a Telehealth one.

Back to School Bash

The Tuolumne Me-Wuk Indian Health Center will host The Back to School Bash again. This event and several sponsors will provide backpacks and school supplies, health information, dental hygiene, FREE sports physicals, FREE hemoglobin testing, and much more. There will also be activities for kids, along with food and treats to purchase. The event will be at the Mother Lode Fairgrounds on July 15 from 10 am to 2 pm. This event is open to every child and teen in our community, so we hope to see you there.
